## What We Did & What We Learnt:

### Wicked Waves - Sound

- We looked at sound as a wave and experimented with different objects and the sounds they make
- We discussed how sound waves travel and how that can change depending on the media they are travelling through
- We experimented with modifying the sounds waves and how that affected pitch
- We looked at sound as a vibration and how we can sense the vibrations by touch
- We experimented with a number of different objects and musical instruments looking at how they made sound.
