

Year 4 Speed stacks

Some of our year 4 children took part in a speed stacks competition on the 8th February. This event was held at Knights Templar school in their old gym. There were lots of schools competing in this event. We started off with the girls competing in a 3-3-3 and a 3-6-3 speed stacking followed by the boys competing in the same event. This then moved on to the children taking part in a girls and boys relay cup stacking. We had lots of fun in this event and showed Hartsfield how proud we were to represent them at a sporting partnership competition.

This ended with an awards ceremony resulting in our girls' team winning medals for coming second place! Here is a list of our wonderful children that took part in this event.
