HEALTH AND SAFETY POLICY
Hartsfield JMI School

PART 1. STATEMENT OF INTENT

The Governing Body of Hartsfield JMI School will strive to achieve the highest standards of health, safety, and welfare consistent with their responsibilities under the Health and Safety at Work etc. Act 1974 and other statutory and common law duties.

This statement sets out how these duties will be conducted and includes a description of the school's organisation and arrangements for dealing with different areas of risk. Details of how these areas of risk will be addressed are given in the arrangements section.

This policy will be brought to the attention of, and/or issued to, all members of staff with a reference copy available on the noticeboard in the staffroom and from the school office.

This policy statement and the accompanying organisation and arrangements will be reviewed annually and sooner in the event of any significant change.

This policy statement supplements:
Hertfordshire County Council's (HCC) Health and Safety Policy.

Bob Hopcraft | *Ollie Monro*

Bob Hopcraft **Chair of Governors** | Ollie Monro **Headteacher**

September 2026 | September 2026

PART 2. ORGANISATION

As the employer the Local Authority has overall responsibility for Health and Safety in Community and Voluntary Controlled Schools.

At a school level duties and responsibilities have been assigned to staff and governors as detailed below.

Responsibilities of the Governing Body

The Governing Body are responsible for ensuring health and safety management systems are in place and effective. They fulfil a strategic role in health and safety and are not expected to be involved in day-to-day management of the school.

As a minimum these management systems should adhere to the LA's health and safety policy, procedures and standards as detailed on the H&S pages of the Hertfordshire Grid and follow the HSE's 'Managing for health and safety' (HSG65) (hse.gov.uk), namely:

- **Plan**-set the strategic direction for effective H&S management.
- **Do**-ensure management systems deal with risks sensibly, responsibly and proportionately.
- **Check**-monitoring and reporting processes are in place to ensure the school is compliant. This includes tracking significant actions from inspections / audit and premises compliance to completion.
- **Act**-undertake a formal review of health and safety performance.

A Health & Safety Governor has been appointed to receive relevant information, monitor the implementation of policies and procedures and to feedback health and safety issues and identified actions to the Governing Body.

The Governing body will receive regular reports from the Headteacher or other nominated members of staff, in order to enable them to provide and prioritise resources for health and safety issues.

Where required the Governing body will seek specialist advice on health and safety which the establishment may not feel competent to deal with.

HCC's Health and Safety Team, Tel: 01992 556478 healthandsafety@hertfordshire.gov.uk provide competent health and safety advice for Community, Community Special and VC schools.

Responsibilities of the Headteacher

Overall responsibility for the day-to-day management of health and safety in accordance with the LA's health and safety policy and procedures rests with the Headteacher.

The Headteacher has responsibility for:

- Co-operating with the LA and Governing Body to enable health and safety policy and procedures to be implemented and complied with.
- Communicating the policy and other appropriate health and safety information to all relevant people including contractors.
- Ensuring effective arrangements are in place to pro-actively manage health and safety by conducting and reviewing inspections, audits and risk assessments and implementing required actions.

- Reporting to the Governing body on health and safety performance and any safety concerns/ issues which may need to be addressed by the allocation of funds.
- Ensuring that the premises, plant and equipment are maintained in a safe and serviceable condition.
- Reporting to the LA any significant risks which cannot be rectified within the establishment's budget.
- Ensuring all staff are competent to carry out their roles and are provided with adequate information, instruction and training.
- Ensuring consultation arrangements are in place for staff and their trade union representatives (where appointed) and recognising the right of trade unions in the workplace to require a health and safety committee to be set up.
- Monitoring purchasing and contracting procedures to ensure health and safety is included in specifications & contract conditions.

Whilst overall responsibility for health and safety cannot be delegated the Headteacher may choose to delegate certain tasks to other members of staff.

The task of overseeing health and safety on the site has been delegated to the Site Manager - Roy Darcy.

Responsibilities of other staff holding posts of special responsibility
Laura Gregory (Assistant Headteacher) and Clare Nelson (Assistant Headteacher) will:

- Apply the school's health and safety policy to their own department or area of work.
- Ensure staff under their control are aware of and follow relevant published health and safety guidance (from sources such as CLEAPSS, AfPE etc.)
- Ensure health and safety risk assessments are undertaken for the activities for which they are responsible and that identified control measures are implemented.
- Ensure that appropriate safe working procedures are brought to the attention of all staff under their control.
- Take appropriate action on health, safety and welfare issues referred to them, informing the head of any problems they are unable to resolve within the resources available to them.
- Carry out regular inspections of their areas of responsibility and report / record these inspections.
- Ensure the provision of sufficient information, instruction, training and supervision to enable staff and pupils to avoid hazards and contribute positively to their own health and safety.
- Ensure that all accidents (including near misses) occurring within their area of responsibility are promptly reported and investigated.

Responsibilities of employees
Under the Health and Safety at Work Act etc. 1974 all employees have general health and safety responsibilities. All employees are obliged to take care of their own health and safety whilst at work along with that of others who may be affected by their actions.

All employees have responsibility to:

- Take reasonable care for the health and safety of themselves and others in undertaking their work.

- Comply with the school's health and safety policy and procedures at all times.
- Report all accidents and incidents in line with the reporting procedure.
- Co-operate with school management on all matters relating to health and safety.
- Not to intentionally interfere with or misuse any equipment or fittings provided in the interests of health safety and welfare.
- Report all defects in condition of premises or equipment and any health and safety concerns immediately to their line manager.
- Ensure that they only use equipment or machinery that they are competent to use (i.e. have received appropriate information, instruction and training).
- Make use of all necessary control measures and personal protective equipment provided for safety or health reasons.

Volunteers are expected to follow the same health and safety arrangements as employees and will be provided with appropriate information, instruction and supervision relevant to their activities.

The school is also the lead agency of the wraparound care managed by The Great Group and thus retains overall responsibility for H&S. The local arrangements of this policy will therefore apply equally to the club. The day-to-day management of health and safety within the Club is the responsibility of the manager Jill Travers.

Where the centre has alternative procedures in place (e.g. for risk assessment, first aid provision etc.) the manager will develop their own local health and safety arrangements to supplement those of the school.

PART 3. LOCAL ARRANGEMENTS

Further detailed information and guidance on the LA's expectations are provided via Health and safety - Hertfordshire Grid for Learning (thegrid.org.uk)

Appendix 1	-	Risk Assessments

Appendix 24	-	Infectious diseases

RISK ASSESSMENTS **APPENDIX 1**

General Risk Assessments
The school conducts and documents risk assessments for all activities presenting a significant risk. These are co-ordinated by the site manager following guidance contained on the H&S pages of the Hertfordshire Grid and are approved by the Headteacher.

Risk assessments are available for all staff to view and are held centrally in the school office and shared drive. These assessments will be reviewed on an annual basis or sooner in the event of any significant changes to the activity or an accident / incident occurs. Staff will be made aware of any changes to risk assessments relating to their work.

As part of the review process previous versions of risk assessments are clearly dated and securely kept. Risk assessment records will be kept for a minimum of 5 years (any relevant risk assessments linked to pupil incidents and subsequent investigations will be retained for a minimum of 3 years after their 18th Birthday).

Individual Risk Assessments
Specific assessments relating to staff member(s) or pupil(s) are held on that individual's file and will be undertaken by the Headteacher or SENCO.
Such risk assessments will be reviewed on a regular basis and whenever there is a significant change in the individual's circumstances or needs.

It is the responsibility of all staff to inform their line manager of any medical conditions (including pregnancy) which may impact upon their work or any other circumstance which may impact upon their health and safety at work.

Curriculum Activities
Risk assessments for curriculum activities will be carried out by class teachers under the guidance of the Assistant Headteachers or Headteacher using the relevant codes of practice and model risk assessments detailed below.
Whenever a new course is adopted or developed all activities are checked against these and significant findings incorporated into texts in daily use e.g. lesson plans or lesson slides.

The school subscribes to CLEAPSS and their publications are used as sources of model risk assessment within Science, Art and DT.
See

- CLEAPSS technology site http://dt.cleapss.org.uk/;
- CLEAPSS science site http://science.cleapss.org.uk/
- CLEAPSS primary school's site http://primary.cleapss.org.uk/

In addition, the following publications are used within the school as sources of model risk assessments:

- [Be Safe! Health and Safety in primary science and technology, 4th Edition ASE] ISBN ISBN 978-0-86357-426-9]
- [Safe Practice in Physical Education, School Sport and Physical Activity 2020' Association of PE 'AfPE' http://www.afpe.org.uk/]

OFFSITE VISITS

APPENDIX 2

HCC has adopted the Outdoor Education Advisory Panel's (OEAP) national guidance for learning outside the classroom and offsite visits and all offsite visits will be planned following this guidance available via https://oeapng.info/

Responsibilities of key roles are outlined by the OEAP here:
Visit leader
EVC
Headteacher

See HCC's policy for the management of Learning outside the classroom and offsite visits and the schools policy- Offsite visits and LOTC

The LA's Offsite Visits Advisor must be notified of all level 3 trips, which include self-led adventurous activities, fieldwork trips to open or "wild" country, and all trips overseas. This will be done via the use of Evolve, the online notification and approvals system.

Evolve will be used for the planning and approval of **all** offsite visits. Relevant risk assessments, participant's names etc. will be attached electronically as required.

The member of staff planning the trip will submit all relevant paperwork and risk assessments relating to the trip to the school's Educational Visits Co-ordinator, Clare Nelson who will check the documentation and planning of the trip and if acceptable initially approve the visit before referring to the Headteacher.

HCC recommends that the EVC should attend training and refresher training every 3 -5 years.

APPENDIX 3

HEALTH AND SAFETY MONITORING AND INSPECTION

A formal inspection of the site will be conducted on a 6 monthly basis and be undertaken / co-ordinated by the site manager.

Inspections of individual departments will be carried out by Heads of Department or nominated staff.

In both cases the person(s) undertaking inspection will complete a report in writing and submit this to the headteacher. Responsibility for following up items detailed in the safety inspection report will rest with the site manager

A named governor will be involved in monitoring the school's health and safety management systems on at least an annual basis and report back to both the relevant sub-committee and full governing body meetings.

Advice and pro forma inspection checklists to assist the monitoring process can be found on the Grid.

Inspections will be conducted jointly with the establishment's health and safety representative(s) if possible.

See Appendix 10 for details of monitoring premises compliance issues.

APPENDIX 4

FIRE, SAFETY, SECURITY AND EMERGENCY ARRANGEMENTS

The headteacher is responsible for ensuring the school's fire risk assessment is undertaken by a competent person and implemented following guidance contained in 'Fire safety risk assessment; Educational premises' and the Grid
The fire risk assessment is located in the site manager's cupboard and will be reviewed on an annual basis.

Emergency Procedures
Fire and emergency evacuation procedures are detailed in the staff handbook and school's emergency response plan and a summary posted in each classroom. These procedures will be reviewed at least annually and are made available to all staff as part of the school's induction process. This training is supported by regular termly drills.

Evacuation procedures are also made available to all other users of the building (contractors / visitors/ hirers etc.).

Emergency exits, fire alarm call points, assembly points etc. are clearly identified by safety signs and notices.

Emergency contact and key holder details are maintained as part of the school's emergency response plan by the office administrator and updated to the LA via Solero.

The school has arrangements in place for the evacuation of people with specific needs and where required, the Site Manager, in consultation with the headteacher, is responsible for completing Personal Emergency Evacuation Plans (PEEPs) which are reviewed annually / sooner in the event of any significant changes.

Emergency Planning, Lockdown and Invacuation
The school maintains emergency arrangements for a range of foreseeable incidents which may affect the safety and welfare of pupils, staff and visitors. These are detailed in the school's emergency plan which can be found on the server, in the office or in the headteacher's office.

These arrangements include procedures for evacuation, lockdown and invacuation.

Emergency response procedures are reviewed periodically and communicated to all relevant staff. Where appropriate, drills and exercises will be undertaken to test the effectiveness of these arrangements and identify any improvements required.

The Headteacher and Site Manager are responsible for ensuring emergency arrangements remain suitable and that staff receive appropriate information, instruction and training.

Security Arrangements
Visitors and contractors are required to comply with the school's access control and visitor management arrangements.

The Site Manager is responsible for the day-to-day security of the premises, including securing buildings, managing access arrangements and undertaking routine checks of buildings and boundaries, reporting any security defects or concerns to the Headteacher.

All staff are responsible for following visitor and access control procedures, reporting security concerns and contributing to a safe and secure school environment.

Security incidents, breaches or concerns must be reported immediately to the Headteacher or Site Manager and investigated as appropriate.

Security arrangements, including procedures for lockdown and invacuation, will be reviewed periodically and following any significant security incident, major change to the premises or relevant national guidance.

Fire Drills

- Fire drills will be undertaken termly and results recorded in the fire logbook.

Fire Fighting

- Staff must ensure the alarm is raised BEFORE attempting to tackle a fire.
- The safe evacuation of persons is an absolute priority. Staff may only attempt to deal with small fires, **if it is safe to do so without putting themselves at risk**, using portable firefighting equipment.
- Staff are made aware of the type and location of portable fire fighting equipment and receive basic instruction in its correct use at induction.

Details of service isolation points (i.e. gas, water, electricity): see plan attached.

Details of chemicals and flammable substances on site.
An inventory of these will be kept by the site manager as appropriate, for consultation.
(See COSHH Appendix 11)

APPENDIX 5

INSPECTION /MAINTENANCE OF EMERGENCY EQUIPMENT

The site manager is responsible for ensuring that the school's fire log is kept up to date and that the following inspection / maintenance is undertaken and recorded in the fire logbook located in the site manager's cupboard.

FIRE ALARM SYSTEM
Fire alarm call points will be tested weekly in rotation. This test will occur on each Monday at approximately 7.15 am.
Any defects on the system will be reported immediately to the alarm contractor / electrical engineer CAMS Security and Fire 01438 740840.
A fire alarm maintenance contract is in place with CAMS and the system tested 6 monthly by them.

FIRE FIGHTING EQUIPMENT
Weekly in-house checks are undertaken to ensure that all firefighting equipment remains available for use and operational.
CAMS undertakes an annual maintenance service of all firefighting equipment.
Defective equipment or extinguishers that need recharging should be taken out of service and reported direct to CAMS Security and Fire 01438 740840

EMERGENCY LIGHTING SYSTEMS
Emergency lighting will be checked for operation monthly in house and these tests recorded. Annually a full discharge test for the duration of the batteries and certification of the system will be undertaken by the site manager (1 hour test) and CAMS (3 hour test)

MEANS OF ESCAPE
Daily checks are undertaken for any obstructions on exit routes and ensures all final exit doors are operational and available for use.

FIRE DOORS
Fire doors are subject to periodic inspection to ensure they close effectively, are free from damage, and that features such as intumescent strips, seals and self-closing devices remain effective.

APPENDIX 6

FIRST AID AND MEDICATION

The school has assessed the need for first aid provision and identified the following staff to provide first aid (both on site and where required for trips/visits and extra-curricular activities).

TRAINED TO FIRST AID AT WORK LEVEL (3 days /18 hrs):
AP until 22.1.28
CCS until 26.11.28
AG until 25.2.29
JP until 22.4.27
HB until 30.4.28

TRAINED TO EYFS STANDARD (PAEDIATRIC FIRST AID, 2 days/ 12 hrs):
AP until 22.1.28
KA until 12.05.27
AG until 25.02.29
JP until 22.4.27
KJ until 10.1.28
CCS until 26.11.28

For school based early years providers under the EYFS at least one person who has a current paediatric first aid certificate must be on the premises and available at all times when children are present and must accompany children on outings. In line with the Sept 25 EYFS update when EY children are eating there should always be a member of staff in the room with a valid paediatric first aid certificate.

TRAINED TO EMERGENCY FIRST AID AT WORK (1 day / 6 hrs):
EA, BC. NA, KW, JJ, CG, SS, LC – until 8.10.28

OTHER TRAINING IN EMERGENCY FIRST AID (6 hr):
Emergency first aid at work and emergency Paediatric first aid (6 hours)
KT,NW,RV,EC-P, ST,MG,CN,SC,RL,JP until 15.11.26

First aid qualifications remain valid for 3 years. The Health and Welfare Officer- Mrs Arlene Parry will ensure that refresher training is organised to maintain competence and that new persons are trained should first aiders leave.

FIRST AID BOXES ARE LOCATED AT THE FOLLOWING POINTS:
First Aid Room

Arlene Parry is responsible for regularly checking (termly) that the contents of first aid boxes, including travel kits are complete and replenished as necessary.

AEDs (automated external defibrillators) **ARE LOCATED AT THE FOLLOWING POINTS:** First Aid Room
Arlene Parry checks the AED regularly plus there is a self-test that will indicate a problem via a warning light / audible alarm. AED pads and batteries will be replaced in accordance with manufacturer recommendations. The defibrillator is registered on the Circuit to ensure it is visible to local ambulance services.

Transport to hospital: Where a first aider considers it necessary, the injured person will be sent directly to hospital (normally by ambulance). Parents / carers will be notified immediately of all major injuries to pupils. No casualty will be allowed to travel to hospital unaccompanied and an accompanying adult will be designated in situations where the parents/carers cannot be contacted in time.

Where there is any doubt about the appropriate course of action, the first aider will consult with the Health Service helpline (NHS Direct 111) and, in the case of pupil with the parents/carers.

Administration and storage of medicines
All medication will be administered to pupils in accordance with the DfE document

Supporting pupils at school with medical conditions. Detailed arrangements are provided in a separate school policy.

No member of staff will administer **any** medication (prescribed or non-prescribed) to children under 16 without a parent's written consent except in exceptional circumstances where immediate action is needed to safeguard the child's health. E.g. the use of a spare adrenaline device in an emergency.

Arlene Parry, and in her absence the school office staff, are responsible for accepting medication and checking all relevant has been provided by parents / carers prior to administering. Records of administration (Med 1 form) will be kept by Arlene Parry.

The school will maintain records of medication held on site, including expiry dates to ensure they remain in date, are ensure these are stored correctly and are available for use when required.
Parents/carers will be notified when replacement medication or devices are needed.

All non-emergency medication kept in school is securely stored in the first aid room with access strictly controlled. All pupils know how to access their medication. Under no circumstances will medication be stored in first aid boxes.

Controlled medication under the Misuse of Drugs Act 1971 will be stored in a secure location with access limited to named staff.

Emergency medication

- Adrenaline pens are kept in the medical room and are clearly labelled with the child's name and photograph
- Inhalers and glucose meters are kept in the relevant classroom. Each inhaler is in a clear wallet with a copy of the child's Health Care Plan

The school have chosen to hold an emergency salbutamol inhaler for use by pupils who have been prescribed an inhaler and for whom parental consent for its use has been obtained. This emergency inhaler would be used if the prescribed inhaler is unavailable, damaged or not working.

The school have chosen to hold emergency Adrenaline auto injectors (AAI) for emergency use on pupils who have been prescribed one and for whom parental consent for its use has been obtained. This emergency AAI would be used where their own device is unavailable or not working.

In the event of a possible severe allergic reaction in a pupil without a prescribed device / parental consent, emergency services (999) would be contacted and advice sought as to whether administration of the emergency AAI is appropriate.

Individual Health Care Plans (IHCP)

Parents / carers are responsible for providing the school with up-to-date information regarding their child's health care needs and providing appropriate medication.

IHCPs are in place for those pupils with significant medical needs e.g., chronic or ongoing medical conditions such as diabetes, epilepsy, anaphylaxis etc.

The IHCP is developed with the pupil (where appropriate), parent/carer, designated named member of school staff, specialist nurse (where appropriate) and relevant healthcare services. These plans will be completed at the beginning of the school year / when child enrols / on diagnosis being communicated to the school and will be reviewed annually (sooner in the event of a significant change) by the Health and Welfare Officer.

All staff are made aware of any relevant health care needs and copies of health care plans are available from the Health and Welfare Officer.

Staff will receive appropriate training related to health conditions of pupils and the administration of medicines by a health professional as appropriate.

Allergen Management
The school recognises the risks presented by food and other allergens and has arrangements in place to identify, assess and manage risks arising from allergens and anaphylaxis.

Detailed arrangements for allergen management are set out in the school's Allergy Policy.

All staff will receive appropriate information, instruction and annual training in allergy awareness, recognising anaphylaxis and responding to allergy related emergencies.

Individual healthcare plans, allergy action plans* and risk assessments will be developed where required, reviewed annually (sooner in the event of a significant change or incident / near miss) and communicated to all relevant staff.

*All children at risk of anaphylaxis should have an allergy action plan completed by the child's health professional. These support the care plan / risk assessment process and staff training by summarising emergency procedures.

The school holds two emergency Adrenaline Auto Injectors (AAIs) for use in an emergency, located in the medical room.

These are considered "spare" devices and not a replacement for a pupil's own prescribed devices. Pupils at risk of anaphylaxis should have their own prescribed AAIs available at school for use in an emergency.

The Human Medicines (Amendment) Regulations 2017 permit "spare" adrenaline devices to be used for the purpose of saving a life and do not require consent for use in an emergency, for example, a child presenting for the first time with anaphylaxis due to an unrecognised allergy

APPENDIX 7

ACCIDENT REPORTING PROCEDURES

Accidents to employees
Employees must report all accidents, violent incidents and near misses.
Where HCC is the employer then **all** employee incidents must be reported to HCC using the online accident/incident reporting system hosted on Solero.

Employee accident / incident forms are to be retained for a minimum of 3 years.

Accidents to pupils
Accidents are recorded using the Medical Tracker system. This allows for recording but also informing parents on the day.

Parents / carers will be notified immediately of all major injuries.

Pupil accident records are to be retained for a minimum of 3 years after their 18th birthday

Accidents to other non-employees (members of public / visitors to site etc.)
A local accident book in the First Aid room is used to record all minor incidents to non-employees; more significant incidents as detailed below must also be reported to HCC using the online accident reporting system hosted on Solero.

- Specified (Major) injuries.
- Accidents where significant first aid treatment has been provided.
- Accidents which result in the injured person being taken from the scene of the accident directly to hospital.
- Accidents arising from premises / equipment defects.

All Accidents
All major incidents will be reported to the Headteacher and the Governing Body. Accidents will be monitored for trends and a report made to the Governing Body as necessary.

The Headteacher, or their nominee, will investigate accidents and take remedial steps to avoid similar instances recurring. Faulty equipment, systems of work etc. must be reported and attended to as soon as possible. Any relevant learning points will be communicated to relevant staff and pupils.

Reporting to the Health and Safety Executive (HSE)
The Headteacher is responsible for ensuring all RIDDOR reportable incidents are reported.

Incidents involving a fatality or specified injury will be reported immediately to the Health and Safety Executive (HSE) on 0345 300 9923 and the Education Health and Safety team on 01992 556478.

Incidents resulting in the following outcomes must be reported to the HSE via their online reporting system http://www.hse.gov.uk/riddor/

- A pupil or other non-employee being taken directly to hospital for treatment and the accident arising as the result of the condition of the premises / equipment, due to the way equipment or substances were used or due to a lack of supervision / organisation etc. within 10 days of the incident occurring.
- Employee absence or inability to carry out their normal duties as the result of a work-related accident, for periods of 7 days or more (including W/E's and holidays), within 15 days of the incident occurring.

See the HSE information sheet 'Incident reporting in schools' EDIS1 REV 3

For VC and Community schools any incident notified to the HSE must also be reported to the LA's Health and Safety Team.

APPENDIX 8

HEALTH AND SAFETY INFORMATION & TRAINING

Consultation
Employees and/or their representatives will be consulted on all matters that affect their health, safety and welfare.
The Premises Committee meets termly to discuss health, safety and welfare issues affecting staff, pupils or visitors. Action points from meetings are brought forward for review by school management.

Staff meetings are held regularly and Health and Safety is a regular agenda item.

Communication of Information
Information and guidance on how to comply with the LA's health and safety policy is given via the H&S pages of the Grid .

The Health and Safety Law poster is displayed in main school Reception and main side entrance.

The Education Health and Safety Team, Tel: 01992 556478 provide competent health and safety advice for Community schools.

Health and Safety Training
All employees will be provided with:

- a copy of and induction training in the requirements of this policy.
- update training in response to any significant change.
- training in specific skills needed for certain activities (e.g., use of hazardous substances, work at height etc.) matched to their work and responsibilities
- refresher training where required.

Any new instructions or restrictions will be communicated to all staff via staff meetings and recorded in notes and minutes and highlighted as part of the standard cycle of policy review.

Training records will be kept in the site manager's cupboard. The Site Manager is responsible for co-ordinating health and safety training needs and for including details in the training and development plan. This includes a system for ensuring that refresher training is undertaken within the prescribed time limits.

The Headteacher will be responsible for assessing the effectiveness of training received and ensuring staff are competent to undertake their duties.

Each member of staff is also responsible for drawing the Headteacher's / line manager's attention to their own personal needs for training and for not undertaking duties unless they are confident that they have the necessary competence.

Temporary, agency and supply staff will receive appropriate health and safety information and instruction relevant to their duties before commencing work.

Volunteers will receive appropriate health and safety information, instruction and supervision relevant to the activities they undertake.

APPENDIX 9

PERSONAL SAFETY / LONE WORKING

The school believes that staff should not be expected to put themselves in danger and will not tolerate violent / threatening behaviour to its staff.

Staff will report any such incidents to the Headteacher and to the Local Authority. Such incidents will be recorded, investigated where appropriate, and monitored to identify trends and any additional control measures required.

The school reserves the right to take appropriate action, including restricting access to the site, where the behaviour of a parent, carer or visitor presents a risk to the health, safety or wellbeing of staff, pupils or others.

The school will work in partnership with the LA and police where inappropriate behaviour/ individual conduct compromises the school's aims in providing an environment in which the pupils and staff feel safe.

Lone working

Staff are encouraged not to work alone in school. Work carried out unaccompanied or without immediate access to assistance should be risk assessed to determine if the activity is necessary. If staff are lone working, another member of staff must be informed with an expected time of arrival and departure shared. The lone worker should then let the informed member of staff know when they leave the site.

Work involving potentially significant risks (for example work at height) must not be undertaken whilst working alone.

Staff working outside of normal school hours must obtain permission of the Headteacher or Assistant Head teachers and inform them or the site staff when on premises and when leaving.

Where lone working cannot be avoided staff should ensure they have means to summon help in an emergency e.g., access to a telephone or mobile phone etc.

School staff responding to alarm call outs

Nominated key holders attending empty premises where there has been an alarm activation should do so with a colleague if possible. They should not enter the premises unless they are sure it is safe to do so. Arena Security are key holders and attend the site. The Site Manager is informed and a written report left in case additional action is required. In case of emergency the Police are contacted by Arena Security or The Site Manager subsequently if a risk is later identified.

APPENDIX 10

PREMISES AND WORK EQUIPMENT

All staff are required to report to the site manager any problems found with the premises or plant/equipment. Defective equipment will be clearly marked and taken out of service by storing in a secure location pending repair / disposal.
Where premises defects are identified, a dynamic assessment is conducted to determine if the area should be isolated / cordoned off whilst awaiting repair.

The site manager is responsible for identifying all plant and equipment in an equipment register and ensuring that any specific training or instruction needs, personal protective equipment requirements are identified and relevant risk assessments conducted where required.

Planned maintenance / inspection
Regular inspection and testing of school plant and equipment is conducted to legislative requirements by competent contractors.
Oversight of premises compliance issues is the responsibility of the site manager.

Curriculum Areas
Class teachers under the guidance of the Assistant Head teachers are responsible for ensuring maintenance requirements for equipment in their areas are identified and implemented.

Electrical Safety
The Electricity at Work Regulations 1989 require electrical equipment in the workplace to be maintained, regardless of ownership (e.g. employee-owned, leased or hired).
All staff will conduct a basic visual inspection of plugs, cables and electrical equipment prior to use. Damaged/defective equipment must not be used and will be reported to the site manager.

All portable items of electrical equipment will be subject to formal inspection and testing (Portable Appliance Testing (PAT)) on an identified cycle (dependent upon the type of equipment and the environment it is used in).
All earthed equipment (class 1) and cables attached to such equipment will be tested annually. This inspection and testing will be conducted by the site manager annually.

The site manager is responsible for keeping an up-to-date inventory of all relevant electrical appliances and for ensuring that all equipment is available for testing

Personal items of equipment (electrical or mechanical) should not be brought into the school without prior authorisation and must be subjected to the same tests as school equipment.

An electrical installation condition report (fixed wire test) will be conducted by Andy Illes Ltd, a registered electrical contractor, on a maximum of a 5 year cycle. The last test was completed July 2020 and is therefore due in July 2025. .
Records of these inspections and certification will be maintained and remedial works arising will be prioritised and completed within appropriate timescales.

PE and External play equipment
External play equipment will only be used when appropriately supervised.

This equipment will be checked daily before use for any apparent defects, and the site manager will conduct and record a formal termly inspection of the equipment.

PE and Play equipment are also subject to an annual inspection by a competent person- John Harrison Ltd. Any equipment with serious defects must not be used and is to be taken out of use / made inaccessible until removed or repaired.

APPENDIX 11

COSHH (FLAMMABLE AND HAZARDOUS SUBSTANCES)

Every attempt will be made to avoid, or choose the least harmful of, substances which fall under the ***"Control of Substances Hazardous to Health Regulations 2002"*** (COSHH Regulations).

Within curriculum areas (in-particular science and DT) class teachers, with support from the site manager if requested, are responsible for COSHH and ensuring that an up-to-date inventory and model risk assessments contained in the relevant national publications are in place. (CLEAPSS, Association for Science Education's "Topics in Safety" etc.)

In all other areas the establishments nominated person(s) responsible for substances hazardous to health is the site manager.

They shall ensure:

- an inventory of all hazardous substances used on site is compiled and regularly reviewed.
- material safety data sheets are obtained from the relevant supplier for all such materials and are readily accessible by staff.
- If required, full COSHH risk assessments are conducted and communicated to staff exposed to the product/substance.
- all substances are appropriately and securely stored out of the reach of children.
- flammable substances will be kept to the minimum quantities necessary, stored in suitable containers and locations away from ignition sources.
- all substances are kept in their original packaging and labelled (no decanting into unmarked containers).
- suitable personal protective equipment (PPE) has been identified and available for use. PPE is to be provided free of charge where the need is identified as part of the risk assessment.

Records of exposure to hazardous substances in the workplace should be kept for a minimum period of 40 years.

Where contractors bring hazardous substances onto site, relevant COSHH information and assessments will be obtained and reviewed prior to work commencing where their activities may affect staff, pupils or visitors.

PPE

All staff required to wear PPE will be provided with suitable information, instruction and training in its use and will use PPE provided accordingly, reporting any defects to their manager.

Where persons may be affected by their use on site, the site manager is responsible for ensuring that COSHH assessments are available from contractors *(this applies to both regular contracts such as cleaners and caterers and from builders, decorators, flooring specialists, etc*).

ASBESTOS

APPENDIX 12

An asbestos survey register and management plan is in place for the school in accordance with HCC's asbestos policy. The school's most recent asbestos management survey was conducted on October 2015. The school's asbestos log (including school plans, asbestos survey data and a site-specific register and management plan) is held the site manager's cupboard.

The Headteacher will ensure that **all** school staff (and others such as catering and cleaning staff who may not be employed directly by the school) are made aware of the location of asbestos containing materials (ACM) within their work areas.

Under no circumstances must staff undertake any work which could disturb the fabric of the building or fixed equipment, e.g., affixing anything to walls without first obtaining approval from an Asbestos Authorising Officer. (Even stapling / pushing a drawing pin into ACM may result in the release of fibres into the air.)

In the event of any damage occurring to materials known or suspected to contain asbestos this will be reported to one of the school's asbestos authorising officers and the area immediately evacuated and closed / locked off. (The school has an incident procedure as part of the asbestos management plan for dealing with an unplanned disturbance of asbestos-containing materials see also https://thegrid.org.uk/Restricted-assets/asbestos-incident-management-jan-26.pdf)

Professional advice will be sought and details of the incident reported to HCC's asbestos team asbestos@hertfordshire.gov.uk.

The school's asbestos authorising officers are Roy Darcy, Site Manager, and Ollie Monro, Headteacher and refresher training is required 3 yearly.
Prior to **any** work commencing on the fabric of the building or fixed equipment (e.g., boilers, kilns etc.), either by contractors or school staff, one of the asbestos authorising officers **must** check the asbestos log and establish whether permission to work can be given.

The Headteacher / asbestos authorising officers shall ensure:

- That the asbestos log is consulted at the earliest possible opportunity and that **all** work affecting the fabric of the building or fixed equipment is entered in the permission to work log and signed by those undertaking the work.
- A visual inspection of asbestos containing materials remaining on site is conducted and recorded (legal requirement to do so annually as a minimum) as part of the school's asbestos management plan. The annual visual inspection sheet will be emailed to asbestos@hertfordshire.gov.uk once completed.
- The limitations of the management survey and areas of the building that have **not** been surveyed are understood and considered as part of the permission to work process e.g., areas above 3m in height, within ceiling voids (where panels / tiles are fixed), floor voids and ducts etc.
- All records pertaining to asbestos are effectively maintained and retained (legal requirement to do so for a period of at least 40 years).
- The school's asbestos management plan is kept up to date, reviewed at least annually and that any asbestos works (removal, new project specific surveys etc.) are notified to the LA via asbestos@hertfordshire.gov.uk.
- Where more invasive works and / or works which go beyond the limitations of the management survey are planned, a refurbishment / demolition survey will be commissioned to obtain a comprehensive assessment of all ACMs that could be affected prior to the works commencing.
- Following ANY asbestos related activity, documentation for the works must be retained locally in the asbestos log and school's copies sent to asbestos@hertfordshire.gov.uk. (Examples of documents to be held include: surveys, risk assessments and method statements for work on asbestos, air monitoring reports, bulk samples, certificate of reoccupation, statement of cleanliness, waste consignment notes etc.).

CONTRACTORS

All contractors used by the school shall ensure compliance with relevant health and safety legislation, safeguarding requirements, guidance and good practice.

All contractors must report to the school office where they will be asked to sign in and wear an identification badge. Contractors will be issued with guidance on emergency procedures, relevant risks, and local management arrangements before starting work.

No intrusive work may be undertaken until asbestos procedures, including permission to work have been followed and authorisation given by a designated Asbestos Authorising Officer. (See Appendix 12)

The site manager is responsible for monitoring areas where the contractor's work may directly affect staff and pupils and checking whether expected controls are in place and working effectively.

Contractors failing to meet required standards may be instructed to stop work immediately and may be removed from site.

School managed projects

The Construction (Design and Management) Regulations 2015[1] applies to all building, demolition, repair and maintenance or refurbishment work.

Where the school undertakes projects direct the governing body are considered the 'client' and therefore have additional statutory obligations. These projects are managed by the Headteacher working with the site manager on the school's behalf who will ensure landlords consent has been obtained and, where applicable, all statutory approvals, such as planning permission and building regulations have been sought.

To ensure contractor competency the school uses a property framework contractor as a method of procuring works. These contractors have satisfied the County Council that they understand and abide by health and safety regulations. Details can be found at **Property contractors and consultants - Hertfordshire Grid for Learning (thegrid.org.uk)**

For major contractors/projects (4), when considering the appointment of contractors outside of Hertfordshire frameworks the site manager in conjunction with HCC will undertake appropriate competency checks prior to engaging a contractor i.e. they have sufficient skills, knowledge and experience) to do the job safely, the degree of competence required will depend on the work to be done.

Contractors will be required to provide a construction phase plan, risk assessments and method statements detailing the safe systems of work to be used prior to works commencing on site.

Risk assessments and method statements shall be specific to the site and all aspects of the works to be undertaken. The school, contractors and any subcontractors involved will exchange relevant information regarding the work activities and agree the risk assessments.

[1] Such projects are notifiable to the HSE where the work exceeds 30 days or involves more than 500 person days of work. In such instances and/ or if there will be more than 1 contractor on site at the same time (in which case a principal designer and principal contractor must be appointed in writing by the client) it is recommended that an agent be used to work on the school's behalf.

APPENDIX 14

WORK AT HEIGHT

Working at height can present a significant risk, where such activities cannot be avoided a **task specific** risk assessment will be conducted to ensure such risks are adequately controlled. A copy of this assessment will be provided to employees authorised to work at height.

Storage above head height is minimised as far as possible, where this cannot be avoided only lightweight and rarely used items are stored there. When working at height (including accessing storage or putting up displays) appropriate stepladders or kick stools are to be used. Staff must not climb onto chairs etc.

Staff using steps, stepladders and ladders will receive appropriate information, instruction and, where necessary training in their safe use.

Only those persons who have been trained to use ladders safely may use them. Basic instruction is provided to all staff who use ladders / stepladders.

Formal training on work at height, use of ladders, mobile tower scaffolds etc. will be provided where a significant risk is identified as part of an individual's role e.g. site staff, See also LA455 - The Ladder Association

Work at height presenting a significant risk must not be undertaken whilst working alone.

The establishments nominated person(s) responsible for work at height is the site manager.

The nominated person(s) shall ensure:

- all work at height is properly planned and organised.
- the use of access equipment is restricted to authorised users.
- all those involved in work at height are trained and competent to do so.
- the risks from working at height are assessed and appropriate equipment selected.
- a register of access equipment is maintained, all equipment is regularly inspected and maintained with any defective equipment taken out of use until repaired / replaced.
- any risks from fragile surfaces are properly controlled.

APPENDIX 15

LIFTING AND HANDLING

Generic risk assessments for regular manual handling operations are undertaken and staff provided with information on safe moving and handling techniques.

Staff should ensure they are not lifting heavy, bulky or awkward items and equipment unless they have received training and/or equipment is available in order to do so safely.

Those manual handling activities which present a significant risk to the health and safety of staff, will be reported to the Headteacher and where such activities cannot be avoided a risk assessment will be conducted to ensure such risks are adequately controlled. A copy of this assessment will be provided to employees who must follow the instruction given when carrying out the task.

Paediatric Moving and Handling
All staff who move and handle pupils have received appropriate training (both in general moving and handling people techniques and specific training on any lifting equipment, hoists, slings etc. they are required to use).

All moving and handling of pupils has been risk assessed and recorded by a competent member of staff. These are regularly reviewed and communicated to relevant staff.

Equipment for moving and handling people (hoists, slings etc.) is subject to inspection on a 6 monthly basis by a competent contractor.

APPENDIX 16

DISPLAY SCREEN EQUIPMENT (DSE)

All staff who use display screen equipment (laptops/computers etc) daily, as a significant part of their normal work *(significant is taken to be continuous / near continuous spells of an hour or more at a time*) e.g., admin / office staff will complete a DSE assessment.

Assessments will be reviewed periodically and where there is a significant change to the workstation, work activity or individual circumstances.

Staff identified as DSE users are entitled to an eyesight test for DSE use by a qualified optician (and corrective glasses if required specifically for DSE use). The school will normally fund eyesight tests for DSE users every two years, unless recommended more frequently by the optometrist.

Advice on the use of DSE is available via the Grid

APPENDIX 17

VEHICLES ON SITE

Vehicular access to the school is restricted to school staff and visitors only and not for general use by parents / guardians when bringing children to school or collecting them. The exception is before and after school (before 8.30 am and after 3.30 pm) for parents dropping off/ collecting children from The Great Group or by prior agreement with school staff. Access to the school must be kept clear for emergency vehicles.

The vehicle access gate must not normally be used for pedestrian access but is used as part of the one-way system when parents are exiting the site. A member of the site management team supervises the gate between 8.40-8.55 am and 3.10-3.30 pm.

Access is available through the day to parents of Merry-go-Round who share the site and passes are issued termly for specific parents with mobility issues to allow access to the site.

Separate pedestrian and vehicle gates are provided.

All drivers on site are expected to comply with site speed limits, traffic management arrangements and instructions issued by school staff.

APPENDIX 18

LETTINGS / SHARED USE OF PREMISES

Lettings are managed by the site manager and overseen by the headteacher.
They will ensure a signed letting agreement is completed specifying the school's terms and conditions for hire. (See *Hiring agreements and third party access - Hertfordshire Grid for Learning (thegrid.org.uk)*)
Relevant public liability cover must be in place and checked by the school.

The school will provide hirers with a site induction to ensure they are clear on fire and emergency procedures, first aid arrangements and any specific risks or restrictions relating to the use of the site.

Hirers are responsible for completing suitable and sufficient risk assessments for their activities and providing these to the school on request.
The school reserves the right to impose restrictions in order to ensure health and safety.

APPENDIX 19

MINIBUSES

Not applicable

APPENDIX 20

STRESS / WELLBEING

The school and governing body are committed to promoting high levels of health and well-being and recognise the importance of identifying and reducing workplace stressors in line with the HSE management standards

The school will

- demonstrate good practice through a step-by-step risk assessment approach, ensuring the systems in place to support school staff are reflected in a risk assessment.
- allow assessment of the current situation using pre-existing data, staff surveys etc.
- promote active discussion with staff and their trade union representatives, to help decide on practical improvements that can be made

The school's wellbeing / mental health lead is Mrs Lauren Nosal with her deputy- Mrs Arlene Parry.

Where concerns regarding work-related stress or wellbeing are identified, the school will work with the individual to identify appropriate support and reasonable adjustments where appropriate.

APPENDIX 21

LEGIONELLA

A water risk assessment of the school has been completed on 4.5.16 by Hydrop E.C.S (registered to complete these tests). The site manager is responsible for ensuring that the identified operational controls are being conducted and recorded in the school's water logbook.

This risk assessment will be reviewed on a regular cycle and specifically where whenever there is reason to suspect it is no longer valid, e.g., significant changes have occurred to the water system and/ or building footprint.

The risks from legionella are mitigated by basic operational controls and thus the following checks are undertaken and recorded.

- Water is heated and stored to 60 deg C at calorifiers (any vessel that generates heat within a mass of stored water).
- Weekly flushing of seldom used outlets and all showers (with all outlets flushed after school holiday periods).
- Monthly temperature checks on sentinel outlets (those nearest and furthest away from calorifiers.
- Quarterly disinfection / descaling of showers.
- Stored cold water tanks are inspected for compliance and safety on an annual basis by Ian Helmore Water Treatment Specifics and tank water temperature recorded.

All records relating to the management of Legionella must be kept for 5 years.

Water sampling for bacteria levels is undertaken annually by Ian Helmore Water Treatment Specifics.

APPENDIX 22

SCHOOL SWIMMING

The school currently uses a public swimming pool for swimming lessons.

These will be planned as an offsite visit in line with the school's policy.

The school will obtain a copy of the pool's standard operating procedure (PSOP), sometimes referred to as a normal operating procedure (NOP) and emergency action plan (EAP) which identify the safety arrangements for the host pool.

In addition, the school will obtain assurance over:

- The level of training of the swimming teacher(s) (Swim England level 2 Teaching Swimming (formerly ASA level 2)).
- Pupil / swimming teacher ratios.
- Rescue / lifeguard provision provided.
- Changing provision / arrangements

APPENDIX 23

WORK RELATED LEARNING

Not applicable

For information- the points below are noted for secondary schools:

Work experience

- All students are briefed before taking part in work experience on supervision arrangements and health and safety responsibilities.
- No work experience placement will go ahead if deemed unsuitable. Depending on the nature of the placement and risk this may necessitate a pre-placement visit undertaken by a competent person(s)[2]
- Where work placements form part of the vocational qualification offered by a FE college then the college is responsible for ensuring equivalent placement checks are conducted.
- Every student will receive a placement job description highlighting tasks to be undertaken and any necessary health and safety information which is passed onto the parent / carer.
- Arrangements will be in place to visit/monitor students during the placement.
- Emergency contact arrangements are in place (including out of school hours provision) in order that a member of school staff can be contacted should an incident occur.

Any incidents involving students on work placement activities will be reported to the placement organiser / school employer at the earliest possible opportunity.

APPENDIX 24

INFECTION CONTROL

The school follows UKHSA guidance 'Health protection in education and childcare settings' and the recommended exclusion periods for specific infectious diseases detailed in this guidance.

Risks for new and expectant mothers will be assessed and reviewed frequently, they will be notified of any known cases of infectious diseases that they may have been in contact with and that can affect pregnancy e.g., chickenpox, measles, rubella, slapped cheek etc. in order they can seek medical advice.

In the event of an outbreak the school will review and reinforce existing baseline infection prevention and control measures.

This will include:

- encouraging all staff and students who are unwell not to attend the setting.
- ensuring all eligible groups are enabled and supported to take up the offer of national immunisation programmes including coronavirus (COVID-19) and flu
- ensuring occupied spaces are well ventilated and let fresh air in
- reinforcing good hygiene practices such as frequent cleaning, respiratory hygiene ('catch it, bin it, kill it') and cleaning arrangements
- considering communications to raise awareness among parents and carers of the outbreak or incident and to reinforce key messages, including the use of clear hand and respiratory hygiene measures within the setting such as E-Bug

Specialist advice from UKHSA East of England Health Protection Team will be sought in the event of any outbreak or serious or unusual illness as listed in Chapter 4 of 'Health protection in education and childcare settings' for example

- a higher than previously experienced and/or rapidly increasing number of staff or student absences due to acute respiratory infection or diarrhoea and vomiting.
- evidence of severe disease due to an infection, for example if a pupil, student, child, or staff member is admitted to hospital.
- more than one infection circulating in the same group of students and staff for example chicken pox and scarlet fever.
